SIDCO

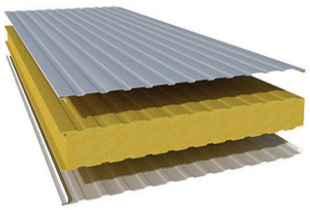
SUSTAINABLE INNOVATIVE DESIGN & CONSTRUCTION

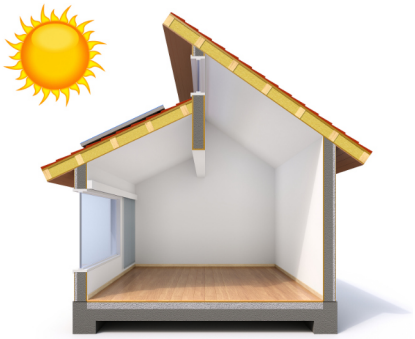
# A Better Housing Solution for a Changing World

## *SIDCO Homes is the Builder of the Fire-Resistant Home*

**It comes equipped with these innovations for greater comfort, safety and reliability:**

- Our patented Eco Smart Panels replace the use of OSB and Plywood save lives and property.
- Eco Smart material is termite proof, mold proof, moisture resistant, and designed to reduce CO2 in the environment.
- The fire-resistant home is all electric and supported with 100% renewable energy.
- Construction standards are quality-controlled, producing a home of superior value compared to a traditionally-built home.





***SIDCO's housing solution can limit the impact of devastating wildfires. The Eco Smart panel is 100% fire-resistant.***

## *A Sustainable Investment and Practical Housing Solution*

**A SIDCO net-zero inspired, fire-resistant home is a financial investment that pays off.**

A SIDCO home recently sold for well over the asking price. SIDCO offers a practical solution to the growing demand for a safer and more sustainable housing option.

*This SIDCO Bay Area residence has the quality and comfort of any modern home.*

*A new SIDCO home in Palo Alto that will be on the market soon!*
